EDUCATION

University of Waterloo

Honours Mathematics, Applied Mathematics with Scientific Computing & Machine Learning

- **Relevant Coursework:** CO 250, STAT 230, CS 136, CS 136L, PD 1, PD 11, ECON 101, ECON 102

Sep 2025 – Apr 2030

Waterloo, ON

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C, C++, Racket, Lua, HTML, CSS, Bash

Frameworks & Tools: React.js (Vite), Node.js, Firebase (Auth, Firestore, Cloud Functions), OpenCV, Git/GitHub

Concepts: REST APIs, Agentic AI / LLM Integration, Model Context Protocol (MCP), LLM Tool-Calling, Object-Oriented Programming, Data Analysis

TECHNICAL PROJECTS

UW Course Planner — Full-Stack Web App + AI Academic Advisor

Feb 2026

- Built a full-stack course planning app using React (Vite), TypeScript, and Tailwind CSS, focusing on a clean and responsive user experience
- Set up Firebase Authentication and Firestore to handle user accounts and keep academic plans saved across sessions
- Pulled live course data including descriptions, codes, and prerequisites from the University of Waterloo Open Data REST API
- Built an AI academic advisor using the Gemini 2.5 Flash API, secured behind a Firebase Cloud Function so the API key never reaches the browser; the advisor runs a multi-turn tool-calling loop to give course recommendations grounded in real eligibility and prerequisite data rather than guesses

Person Tracker — Raspberry Pi + Computer Vision

Aug 2025

Collaborative project

- Built a real-time human tracking device in Python using OpenCV on a Raspberry Pi, capable of detecting and following a target across the frame
- Computed image-space error relative to the frame center and converted it into pan-tilt servo commands to physically move the camera
- Tuned detection sensitivity and servo response for smooth, centered tracking with minimal lag

Space Mining Game — Roblox (Lua)

2026 – Present

Collaborative project

- Scripted interactive UI systems from scratch including game menus and in-game HUDs, wiring up the visuals to actual game logic
- Developing core mechanics including resource collection, inventory management, and player progression systems

WORK EXPERIENCE

Haneco Lighting Canada

Sep 2026 – Dec 2026

Sales Representative / Energy Specialist — Co-op

Markham, ON

- Call around 50 leads per day to set up business meetings and explore new opportunities
- Send outreach emails to businesses to follow up on leads and open new conversations
- Inform business owners about government incentive and rebate programs, such as Save on Energy, for lighting and solar upgrades
- Work toward a target of 3 booked business meetings per day through outbound outreach

Kumon North America, Inc.

Jun 2026 – Present

Assistant Tutor — Part Time

Markham, ON

- Run the centre's online program end to end as the sole instructor, delivering math and reading lessons to every remotely enrolled student
- Mark all online student submissions and return graded work, covering the centre's complete online marking load

Kumon North America, Inc.

Mar 2021 – Aug 2025

Assistant Tutor — Part Time

Richmond Hill, ON

- Tutored 50+ students per week across elementary to Grade 12 levels in math and reading, adapting to different learning styles along the way
- Managed a busy classroom of 30+ students at once, keeping things organized, on track, and running smoothly
- Gave parents regular progress updates and kept 100% accuracy in marking, data entry, and student progress tracking

Trademark Industries Inc.

Sep 2023 – Jan 2024

Sales Associate & Warehouse Packer — Co-op

Markham, ON

- Handled customer service, inventory management, and restocking on a high-volume sales floor
- Used Shopify, RocketReach, and Excel to organize order data, support customer outreach, and keep distribution running efficiently
- Packed and shipped 50–100+ orders daily, including large-scale fulfillment for Walmart, Costco, Home Depot, and Canadian Tire
- Created and managed social media content for TikTok and Instagram to grow product visibility and customer outreach

AWARDS & CERTIFICATIONS

Awards: University of Waterloo President's Scholarship | Harvard CS50x (2023) | Kumon Math & Reading Program Completer | WHMIS 2023
